

Defy-Ox

Other Names

None

Description

Defy-Ox is an Ascorbic Acid based blend giving maximum protection in preventing oxidation. Defy-Ox acts powerfully, both as a preventive measure and as a cure on wines which tend to oxidize by lowering the oxidation-reduction potential. Ideally used at the bottling line, treated wines remain cleaner, fresher, and retain a better organoleptic profile over time.

Properties

- Potassium Metabisulfite
- Complies with E.C. food additive specifications and Codex Oenologique International
- Ascorbic Acid (Vitamin C) : 21%
- Citric Acid

Directions for use

Dissolve the addition in wine and add to the tank while circulating.

Hazard Warning

Eye and hand protection recommended.

Dosage

1 – 4 lbs / 1,000 gallons. 0.83lbs (100ppm) /1000 gallons will yield 28 ppm Free SO₂

Packaging

1 Kg Vacuum Packed Packet
