

LGA-30

Other Names

30% Liquid Gum Arabic

Description

LGA-30 is a colloidal solution derived from the solubilization of the Gum Arabic of the most selected varieties of the Acacia tree. The product is twice sterile filtered through an exclusive process insuring that it will not plug bottling line membranes. With an electropositive charge, LGA-30 can be used as a colloidal protector with the following benefits: Prevent Haze Formation due to Instabilities, Enhance Body and Structure, Increase Roundness on the Palate, Stabilize Color, Inhibit Formation and Precipitation of Tartrate Crystals

Properties

- Sulfur Dioxide: 0.5%
- Appearance: Clear to pale yellow liquid
- Gum Arabic: 30%
- Complies with E.C. food additive specifications and Codex Oenologique International
- Brix: 26.95 at 20°C
- pH: 4.0 +/- 0.2
- Density: 1.138 at 20°C

Directions for use

Add the dose directly to the wine just prior to bottling.

Hazard Warning

Eye and hand protection recommended.

Dosage

1 – 6 lbs / 1,000 gallons (450 grams -2.25 kg / 1,000 gallons)

Packaging

25 Kg Drum or 250 Kg Container.
