

# Springferm

## Other Names

Organic fermentation nutrient

## Description

Springferm® is made with heated live yeast that has been partially broken down allowing the yeast to release nutrients through the broken membranes before being dried. Springferm provides naturally large amounts of vitamins and minerals and is a superior source of amino acids (organic nitrogen). Due to its high solubility, nutrients will be available immediately and the rest will be gradually released during fermentation.

## Properties

- All vitamins minerals and proteins are derived from yeast.
- Pure yeast in dry powder form with no additives.

## Directions for use

Suspend dose in 5 parts of water and add to the must.

## Hazard Warning

Powder can cause a light irritation of mucous membranes, skin and eyes.

## Dosage

1.5-2 lbs/1000 gallons

## Packaging

25 kg Bag
