---

## **Section 6: Accidental Release Measures**

### **6.1 Personal Precautions, Protective Equipment and Emergency Procedures**

**Non-Emergency Personnel:** Evacuate unnecessary personnel from contaminated area.

**Emergency Personnel:** Ventilate area, equip cleanup crew with appropriate protective equipment (see section 8)

### **6.2 Environmental Precautions**

Prevent entry to drains, sewers, and surface/ground waters.

### **6.3 Methods and Material for Containment and Cleaning Up**

Cover the drains to avoid product going into the sewage system; collect the spilled material in appropriate containers using a method that does not generate dust (vacuum cleaner or wet sweeping) for reclamation or disposal in accordance with local rules.

### **6.4 Reference to Other Sections**

See Section 13

---

## **Section 7: Handling and Storage**

### **7.1 Precautions for Safe Handling**

Wash hands and other exposed areas with mild soap and water before eating, drinking, smoking, and when leaving work. Ensure adequate ventilation, especially in confined areas, to minimize dust generation and accumulation.

### **7.2 Conditions for Safe Storage, Including Any Incompatibilities**

Keep in a tightly closed container. Protect from physical damage. Store in a cool, dry, ventilated area away from sources of heat, moisture, and incompatibilities. Containers of this material may be hazardous when empty since they retain product residues (dust, solids); observe all warnings and precautions listed for the product.

### **7.3 Specific End Uses**

See 1.2

## **Section 8: Exposure Controls/Personal Protection**

### **8.1 Control Parameters**

None established.

### **8.2 Exposure Controls**

**Ventilation System:** Provide ventilation system; in general dilution ventilation is a satisfactory health hazard control for this substance. However, if conditions of use create discomfort to the worker, a local exhaust system should be considered.

#### **Personal Protective Equipment (PPE):**

**Personal Respirators (NIOSH Approved):** Not expected to require personal respirator usage. For conditions of use where exposure to dust or mist is apparent and engineering controls are not feasible, a particulate respirator (NIOSH type N95 or better filters) may be worn. If oil particles (e.g. lubricants, cutting fluids, glycerine, etc.) are present, use a NIOSH type R or P filter. For emergencies or instances where the exposure levels are not known, use a full-face positive-pressure, air-supplied respirator. **WARNING:** Air-purifying respirators do not protect workers in oxygen-deficient atmospheres.

**Skin Protection:** Wear protective gloves and clean body-covering clothing.

**Eye Protection:** Use safety glasses or chemical goggles. Maintain eye wash fountain and quick-drench facilities in work area.

**Hygiene Measures:** Handle with accordance with good industrial hygiene and safety practice. Wash your hands before breaks and at the end of the workday. Keep away from food and drink. Wash work clothing and PPE periodically to remove contaminants.
