Non-Emergency Personnel: move away from the area surrounding the spill or release. No smoking. Wear appropriate protective equipment (see section 8).

Emergency Personnel: ventilate area, wear appropriate protective equipment (see section 8), avoid breathing the dust and contact with eyes. Evacuate the danger area and, if necessary, consult an expert.

6.2 Environmental Precautions

Limit spills with earth or sand. If the product has escaped into a water course, into the drainage system, or it has contaminated the ground or vegetation, notify the competent authorities.

Dispose of waste in compliance with current local regulation.

6.3 Methods and Material for Containment and Cleaning Up

Collect the spilled material in appropriate containers using a method that does not generate dust (vacuum cleaner or water cleaner) for reclamation or disposal in accordance with local rules. Flush area with water.

6.4 Reference to Other Sections

See Section 8 or 13

Section 7: Handling and Storage

7.1 Precautions for Safe Handling

Follow appropriate Good Manufacturing Practices. Avoid contact, inhalation and ingestion of dust. See also section 8.

7.2 Conditions for Safe Storage, Including Any Incompatibilities

Keep in a tightly closed container. Do not store in unlabeled containers. Protect from physical damage. Store in a cool, dry, ventilated area away from sources of heat/ignition, moisture, direct sunlight, extreme cold, and incompatibilities. Containers of this material may be hazardous when empty since they retain product residues (dust, solids); observe all warnings and precautions listed for the product.
