

CLEANERS -- LIQUID ACIDIC BLENDS

Acid Force

Application

ACID FORCE can be used as a scale/lime remover and CIP acid neutralizer on stainless steel, aluminum, and plastics and will work on calcium oxalate deposits. Do not use on soft yellow metals or iron. Approved by the FDA for use in food processing plants. A cleaning rinse with water is required.

Description

ACID FORCE is an industrial-quality, low-foaming acid detergent, cleaner, and descaling concentrate that contains metal brighteners and stainless steel passivators.

Properties

Color: Pink, clear

Scent: Odorless

Density: 1.2 g/mL (10.0 lbs/gal) at 68°F (20°C)

pH: <2 at 1%

Acidity: >30%

Phosphorous content: <15%

Directions

Normal use rates are 1-32 fl. oz. per gallon, followed by a potable water rinse. Can also be used to neutralize evaporator caustic solutions at dilutions of about 1% by volume. Do not use on iron or galvanized material, as severe rusting will result.

Packaging

4x1 gal, 5 gal, 15 gal, 30 gal, 55 gal, 250 gal, 300 gal

Please refer to the SDS for safe handling requirements.
