BURGUNDY

The Burgundy glass is the perfect accompaniment to lighter reds and bolder whites. The large bowl enhances subtle floral, earthy and fruit aromas while directing the wine to evenly coat the palate, ensuring the most complex tasting experience.

“The service was better, but so was the glass, light and elegant in the hand, but sturdy, less prone to chipping than other prominent glassware we had tried.

The winery saves thousands of dollars a year using Stölzle.”

— Brian Allard, DTC Director
Bouchaine Vineyards, Napa Valley

STÖLZLE'S HIGH TECH & INNOVATIVE FACILITIES

design and manufacture cutting edge, brilliant, and strong glassware, while holding firm to their commitment to the environment and using only reclaimed and recycled materials for all of their packaging.

BORDEAUX

Bordeaux glasses are designed for bigger, bolder wines. The large bowl allows the bouquet to develop layers of aroma, while the larger opening directs the wine onto a wider portion of your palate resulting in the smoothest tasting experience boosted by aromatics. Bold Zinfandels, Cabernet Sauvignon, Petit Syrah, and wines blended as such are perfectly presented in this glass.

GERMAN MANUFACTURED & 100% LEADFREE CRYSTAL, each Stölzle glass is painstakingly designed to maximize the style, flavor, and aroma of every unique wine.

SYRAH, ZINFANDEL & CHIANTI

Designed for medium bodied wines, these glasses soften spicy flavors and embolden fruit. Well suited to a wide array of red wines, as well as many white wines, each glass needs to be carefully experienced to find the perfect shape for your unique bottlings.

WHEN YOU SEE THIS ICON YOU KNOW IT'S A PULLED STEM! Through this advanced process, the bowl and stem are made from one piece of glass ... eliminating the vulnerable breaking point between the stem and the bowl, and creating a seamless elegant product with the feel of hand-blown glasses.

WHITE WINES & ROSÉ

The smaller, gently curved bowl keeps temperatures cool and aromas focused. The narrow rim directs the flow across the tongue for a balance of fruitiness and acidity. The somewhat diminutive shape matches a variety of white wines from lean and fresh to voluptuous and rich. These glasses are designed to deliver the finer qualities of many classics.

YOUR BRANDING IS IMPORTANT, and we'll help you get it in the hand of every guest with your logo on the glass. Be it meticulously silk screened or permanently laser etched, we work with you to make sure your brand makes an impact.

CHAMPAGNE

Champagne glasses are as varied as the wines you serve in them: the classic, narrow flute preserves bubbles and highlights bright and youthful wines; while a wider bowl allows more space for complex, heady aromas to collect. Stölzle Champagne glasses feature an etched sparkling point at the bottom of the bowl for an endless stream of bubbles.
