

## TANNINS

# Color-Tan Thermo

### Description

**Color-Tan Thermo** is a liquid blend of wood-derived condensed tannins.

### Properties

**Color Tan Thermo** is formulated to preferentially bind with and stabilize high concentrations of anthocyanins.

### Use

**Color Tan Thermo** enhances color stabilization and is particularly suitable for use in conjunction with Thermovinification and Flash Détente processes. It also:

- Contributes to the preservation of aromatic notes in red and rosé wines;
- Reduces off-aromas & off-flavors;
- Contributes to a decrease of mercaptans;
- Improves structure and balance.

### Dosage and Addition

**Thermovinification/Flash Détente:** 1500 – 2000 ml/ton

**High temperature fermentation (79 – 90° F):** 100 – 200 ml/ton

### Storage and Shelf Life

Store in original packaging in a neutral, odor-free environment that is dry and cool, max. 77°F (25°C). Carefully reseal any partial containers. The integrity of the product is guaranteed only if it is stored as indicated in this Technical Data Sheet.

### Packaging

**Color Tan Thermo** is available in 25 kg packaging.

Product for Enological Use Only

Non-GMO, allergen-free
