

CLEANERS

TANK BRIGHT

Heavy duty foaming acid cleaner

Properties

TANK BRIGHT is an industrial quality foaming acid detergent cleaner and descaling concentrate. It contains metal brighteners and passivators and will work on calcium oxalate and water deposits where other products fail. It is designed for use on glass, stainless steel, and aluminum surfaces.

Applications

TANK BRIGHT contains only ingredients that are priorly sanctioned by the FDA for use in food processing plants. A cleaning rinse with water is required.

Physical Properties

Color	Blue, clear
Scent	Odorless
Density (20 °C)	1.08 g/mL (9.00 lbs/gal)
pH (1%)	<2
Phosphorous content	<3%

Directions for Use

TANK BRIGHT can be used with water at dilutions as low as 4% by volume, up to 10% by volume.

Use concentrations: Aluminum: 10-15 parts water to 1 part concentrate, Stainless steel: 20-25 parts water to 1 part concentrate. Begin wash at bottom of surface and work up. Allow product to stand on surface for approximately 5 minutes, then rinse. For tough stains additional applications may be necessary. Never allow product to dry on application surface. Do not use in direct sunlight.

Warnings

Causes severe burns! Keep out of reach of children. Contains an appreciable amount of inorganic-based acids. Harmful or fatal if swallowed. Severe eye irritant. Protective gloves, clothing and eye protection must be worn when using this product. TANK BRIGHT contains hydrofluoric acid and phosphoric acid.
