

## Safe Wash

Non-Caustic CIP and General-Purpose Cleaner

Properties	<b>Safe Wash</b> is a CIP and COP cleaner. <b>Safe Wash</b> has been formulated to remove organic deposits commonly encountered in breweries and wineries. It is safe to use on a wide variety of surfaces including but not limited to stainless steel, aluminum, copper, brass, zinc, plastic, and painted surfaces. This product is Alkaline and forms peroxygen.	
Applications	<b>Safe Wash</b> was specifically developed for use in non-caustic applications and can be used in food and beverage plants.	
Physical Properties	Form	Free flowing solid
	Color	White
	Scent	Odorless
	Density	N/A
	pH (1%)	11.6 ± 0.4
Directions for Use	<b>Safe Wash</b> can be used on surfaces and equipment including hard surfaces such as walls, floors, kegs, kettles, tubs, tanks, heat exchangers, and sinks. For these applications <b>Safe Wash</b> should be used at concentrations from 0.6-5 oz. per gallon of water and can be used at temperatures ranging from ambient to 200*f. After cleaning, everything should be rinsed with tap water. If material compatibility is a concern, a resistance test should be performed on a small, inconspicuous area.	
Packaging	This product is available in 40 lb. pails and 400 lb. drums. Larger pack-sizes available upon request.	

**Important:** Read and understand label and Safety Data Sheet (SDS) for complete listing of hazards, precautions, first aid statements, and storage and handling information. SDS Sheets are available from the distributor of this product. 24-Hour Emergency Response Line 1-800-262-8200.
